Profile

Shannon Hamilton creates appealing, familiar and exciting contemporary artwork which has found popularity throughout Australia and overseas.

Having loved art from a young age, Shannon developed her unique self-taught style during her career as an Occupational Therapist. She would also encourage patients suffering with various disorders to communicate and express themselves through art. Giving Occupational Therapy away in 2000 to explore her own potential, Shannon has gone on to achieve outstanding success.

Exhibitions of her work have been held at galleries including:

- Fusion Gallery, Mandurah WA
- Red Sea Gallery, Singapore
- Agora Gallery, New York
- Jah Roc Gallery, Margaret River WA
- British High Commission, Singapore
- Catherine Asquith Gallery, Melbourne
- Margaret River Galleries, Western Australia
- Gadfly Gallery, Western Australia

Shannon's paintings feature strong, bold strokes of colour, tastefully capturing the sensuality of the human form in the warmth of Australian sunlight. Having travelled the world, she also draws upon African and Asian cultures with a focus on warmth of human relationships, especially of the bond between mother and child.

Most of Shannon's works are now sold studio direct, with buyers enjoying the experience of directly connecting with the artist. Her artistic flair is also sought by those looking to find soulful artwork to depict 'meaningful moments' to complete a particular space in homes, commercial spaces or offices.

An extensive range of Shannon's works - which use chalk pastels, oils on canvas/board and mixed media - are available to view at <http://www.shannonhamilton.com>.
